

Client perspective (40pt)

Marked by: *Robert de Jonge* *Den Doelder* *Pellels*

The team's view on the project assignment is...

0	5	7,5	10
Not gradable	Recognizable, but clearly parts are missing	Exactly as the client described it	Obviously more than just what the client has described, but what the client <i>needs</i>

The view of the process of the future situation that the team has described is...

0	10	15	20
Not gradable	An attempt has been made to work out the process	The described process matches reality	The described process shows that the team truly understands how the process works and what is important

The solution direction that the team has in mind is...

0	5	7,5	10
Not gradable	Recognizable, but important parts are missing	Focused on solving the direct problem	Not only solves the problem, but solves it WELL

In addition, mark to what extent the team has acted professionally over the past 8 weeks (0-10)
