

Grading form Framework Project 1 – Project result

Team: 6

Date: 7-4-2022

The team has the undesirable situation well in mind

0	5	10	15
Not assessable	Recognizable, but there are obvious missing parts	Exactly as the client described	More than what the client described; but what the client <i>needs</i>

The team described the (business) process of the current undesirable situation well

0	5	10	15
Not assessable	An attempt has been made to describe the (business) process	The described (business) process corresponds to reality	The described (business) process shows that the team understands truly understands what the process is and what is important

The team has a good solution (direction) in mind

0	5	7,5	10
Not assessable	Recognizable, but there are obvious missing parts	Focused on solving the direct problem	Not only solves the problem, but solves it WELL

Also grade how professionally the team has behaved over the past weeks (0-10)

0	1	2	3	4	5	6	7	8	9	10
Below expectation						Conform expectation		Above expectation		

Below is some space to give feedback. What did the team do well? What can they still learn? Are there things they should even stop doing?

I think that they are doing very well so far.
Working with the group is very nice, lot off
Questions they had, and did a good job with
everything we (s) told them.
Looking forward to the next Demo.
